SUMMARY

Junior Full Stack Developer skilled in React, TypeScript, and Node.js. Built a real-time chat app with WebSockets and a full e-commerce site with Stripe integration. Passionate about building scalable and user-friendly web apps.

SKILLS

JavaScript, TypeScript, React, Node.js, Express, MySQL, MongoDB, Mongoose, WebSockets, Stripe Integration, API Development, Full-Stack Development

PROJECTS

Real-Time Chat Application

[Github Repository](#)

- Designed a user-friendly UI with React and Tailwind CSS for a smooth user experience and optimized performance
- Integrated WebSockets for real-time messaging to enable seamless communication.
- Implemented message storage using MongoDB/MySQL for efficient data management.
- Built a responsive and scalable chat platform with a modern tech stack.

E-commerce Platform

[Github Repository](#)

- Developed an Admin Panel allowing easy product management and admin control.
- Integrated Stripe Payment Gateway for secure and seamless transactions.
- Utilized MongoDB to store and manage product data efficiently.
- Implemented CSS Media Queries to ensure responsiveness across various devices.

EDUCATION

CVOVolt Campus ---- 2023-2025

- Gained foundational knowledge in web development, including both front-end and back-end technologies.

freeCodeCamp ---- 2023

- Completed extensive coursework in HTML, CSS, JavaScript.
- Gained hands-on experience building real-world web applications and mastering core development skills.

Self-Learned Web Development

- Developed a strong understanding of full-stack development through self-paced online learning, tutorials, and project building.
- Continuously upgraded skills in React, Node.js, MongoDB, and other modern web technologies.
